

Artists visits to the offshore radio stations

The idea for this list came from Martin van der Ven after listening to one of the last shows from Keith Skues in September 2020 when Keith mentioned some of the names of artists who visited the Mi Amigo from Caroline South in the sixties. With this new list we mention not only those who visited a radio ship, but also the studios on land or even presented a program. Mentioning for being on a roadshow or other venue, organized by an Offshore station, are also in this list. If so the item will be mentioned 'outside'. Up to the readers to make this list a complete as possible. Please name the artist, the station's name as well as it was on land or at sea.

Aart Staartjes - Veronica Hilversum

Accents, the - Radio London Outside
